HP DesignJet T2600 Multifunction Printer Plus Edition - Build Connected series

The first DesignJet MFP that connects paper drawings to cloud workflows[1] with end-to-end productivity for workgroups

CONNECTED WORKFLOWS—Integrated scanner with HP Build Workspace[2]

- Scan paper drawings directly from the front panel into HP Build Workspace cloud workflow[2], creating a single, smart, shareable version.
- Collaborate on the latest drawing. Use QR-linked version control in HP Build Workspace[2] to sync physical drawings with the latest cloud update.
- Save up to 80% of drafting time and boost your design workflow with the AI-enabled, integrated scan-to-vectorize capability[3].
- Speed up your printing process with radically simple solutions such as HP Click software and HP Click Driver[4] for the easiest PDF printing[5].

MAXIMISE PRODUCTIVITY—Fast printing and the most advanced print stacking[6]

- Cut out unproductive tasks with the most advanced, fully integrated automatic print stacking[6]—handling up to 100 pages at a time.
- Provide the highest accuracy and display the finest details with the unique Adobe PDF Print Engine.[7]
- Meet deadlines with fast speeds, up to 180 A1/hr[8], with dual roll options[9] for non-stop production.
- Showcase design versatility—from precise line drafts to boldly coloured 3D renders—with HP Bright Office Inks.

TRUSTED PROTECTION—World-class printer protection with HP Wolf Pro Security[10]

- Safeguard your device from attacks by validating the integrity of your firmware and BIOS with allowlisting and HP Secure Boot.
- Control who accesses the printer and its confidential documents with secure user authentication.
- Ensure end-to-end data protection with advanced encryption, including TLS 1.3 and IPsec.

Messaging Footnotes

[1] Based on competitive analysis of connected functionality across similar MFPs in this class, April 2026.
[2] HP Build Workspace, the first solution to offer cloud-based AI Vectorization to convert raster drawings into working CAD files, specifically designed for architects.
[3] Based on published product specifications, the HP DesignJet T2600 36-in MFP Series Plus Edition | Build Connected can scan directly to HP Build Workspace with vectorization capability. In comparison, the Canon imagePROGRAF TX-3200 can scan to the cloud but does not support vectorization, while the Epson SureColour T5770DM supports neither cloud scanning nor vectorization. HP's internal evaluations estimate time savings based on pilot studies using over 1,000 customer drawings. The comparison measures drafting effort with the solution versus manual drafting. Actual savings may vary due to factors like drawing complexity and image quality.
[4] HP Click App is compatible with Windows and Mac. HP Click Driver is compatible with Windows 11 only. HP Click software is only compatible with Original HP ink supplies. Applicable to PDF, JPEG, TIFF, DWF, and HP-GL/2 files.
[5] Based on a competitive comparison of the HP Click Driver and comparable competitive printer drivers that represent the majority of the market share as of 2026 according to IDC. The HP Click driver performs all steps in one: providing an interactive print preview, PDF error detection with warnings, and print settings all together, unlike competitors, which are not integrated. The comparison was performed by Sogeti in April 2026.
[6] Based on all comparable large-format inkjet printers under $12,000 (USD) as of April 2026. Based on published product specifications, the HP DesignJet T2600 36-in MFP Series Plus Edition | Build Connected includes a fully integrated output stacking system as part of the device design. The output basket/bin offered for the Canon imagePROGRAF TX-3200 is an optional accessory that is not integrated into the printer structure and requires the user to change the position of the stacker depending on the size of the printed materials. No stacking system or stacking accessory is available for the Epson SureColour SC-T5770DM.
[7] Requires purchase of HP DesignJet T2600 36-in MFP Series Plus Edition | Build Connected models or optional HP DesignJet PostScript/PDF Upgrade Kit. Highest accuracy and finest details compared to printers without the embedded Adobe technology excluding RIP users, and based on internal HP testing with PDF files containing special fonts, PANTONE® colours, smooth shading, overprint, and transparencies that can only be reproduced using the Adobe PDF Print Engine. The Adobe PDF Print Engine (APPE) is Adobe's high speed, high fidelity print platform. To learn more, visit https://www.adobe.com/products/pdfprintengine.html .
[8] Mechanical printing time. Printed in Fast mode with Economode on, using HP Bright White Inkjet Paper (bond) and Original HP inks.
[9] Dual rolls included with HP DesignJet T2600dr 36-in Multifunction Printer Plus Edition | Build Connected models only.
[10] HP Wolf Pro Security includes various HP security features and is available on the HP DesignJet T850/XT950 plotter series, HP DesignJet Smart Tank T858/T908/T918 printers, HP DesignJet T1600 plotter series, HP DesignJet T2600 multifunction plotter series, HP DesignJet T1700 plotter series, HP DesignJet Z9+ Pro printer, HP DesignJet Z6 Pro printer, HP DesignJet Z9+ PostScript® printer series, HP DesignJet Z6 PostScript® printer series, HP DesignJet XL 3600 multifunction printer series, and HP PageWide XL & Pro printers.
